RAFAY RAJPUT

JUNIOR AI AUTOMATION DEVELOPER

SUMMARY

Aspiring AI Automation Developer with hands-on project experience building n8n workflows, AI voice-agent prototypes, chatbots, and API/webhook integrations. Interested in solving business problems by connecting tools and reducing repetitive manual work. Learning through practical projects and looking for an internship or entry-level role.

INDEPENDENT AI AUTOMATION PROJECTS

AI VOICE RECEPTIONIST — Prototype

Call-agent demo for clinics

- Built a voice-agent demo that answers clinic-related questions and collects appointment details.
- Connected it to an n8n workflow via APIs/webhooks to record appointments in Google Sheets.
- Tools: Vapi, FastAPI, Groq, n8n, Google Sheets.

N8N WORKFLOW AUTOMATION — Demos

Business workflow demos

- Built workflows using webhooks, conditional logic, data processing, and Google Sheets.
- Focused on automating repetitive tasks and organizing business information.

AI RECEPTIONIST FOR HOME SERVICES — Concept

Enquiry-handling workflow design

- Designed a workflow to collect customer details, service requests, issue descriptions, and urgency levels.
- Aimed at helping service businesses organize enquiries and customer requests.

WHATSAPP / BUSINESS ENQUIRY AUTOMATION — Prototype

Enquiry and order capture

- Developed automation workflows to capture customer enquiries and order details into structured records.
- Built as a prototype for practice; not a deployed solution.

EDUCATION

C.I.T. Diploma — In progress

Intermediate (First Year) — In progress

Matriculation — Sindh Technical Board
